In association with

nettl
of Gloucester & Cheltenham

Wednesday 22 May 12:30pm

Gloucestershire Engineering & Manufacturing Forum

Engineering & Manufacturing is a highly significant Gloucestershire business sector, employing 14.1% (2017 figures) of the county's population. It's an exciting sector for growth potential and inward investment both nationally and internationally. Our Business Forum for the sector looks to create a discussion around the opportunities and challenges for business development, staffing, skills and more that we can take forward into the coming year.

Phil Coley

Phil Responsible for Sales and Business Development for iPlus Marketing based in Cheltenham. iPlus is a content marketing and lead generation agency supporting customers large and small with content ranging from written word, video and photography being used within websites, social media and marketing resources. Phil specialises in with the Engineering and Manufacturing sectors across Gloucestershire and beyond.
