Cheltenham Town Hall, Imperial Square, Cheltenham, GL50 1QA

In association with

nettl
of Gloucester & Cheltenham

Tuesday 21st May 1:00pm

Gloucestershire Procurement Forum

It's difficult knowing what target customers, private or public sector, are considering when they look for new providers, or indeed maintaining providers. What happens to your bid? Why do tenders ask certain questions? How important is cost? Is local supply considered an advantage? This forum allows an open discussion to understand some of the aspects that organisations consider, and an insight into some key restrictions that can occur for larger enterprises in their decision making.

Dave Bass

An energetic but highly recommended, committed, diligent and developed professional with substantial proven success, across a spectrum of roles, within supply chain, operational, project and team management, spanning over 25 years. DBPS practically advise, supports and deliver procurement projects for all size businesses – with a particular slant on procurement training, mentoring, and risk management.
